TRAIT MAPPING

Datasets of Traits in Urban Areas

CESTES - global database for metaCommunity Ecology: Species, Traits, Environment and Space **PDF**

POWERED BY

General Data Collection and Post-Processing Tips

Coming Soon!

General Trait Data Sources

Animal longevity

Amphibian morphological traits

database; https://figshare.com/articles/dataset/Amphibian_database/21159229

AmphiBIO - Mostly life history and ecological traits of amphibians

AVONET - morphological, ecological and geographical data for all birds PDF

BIEN - Botanical Information and Ecology Network

Biotic Interactions - global

Birds - morphological, ecological and geographical data for birds

Canopy height

Chromosome counts – Animals

Coral bleaching dataset

Coral Reefs - global Information for coral reefs

Egg shape and size 6k insect species

FishShapes v1 - fish shape and size

Fresh Water Ecology

Genome size

Karyotypes – Animals

LepTraits - butterfly traits

LTERs - National Science Foundation funded Long Term Ecological Research sites

Mammal Traits

Movebank

Open Traits Network

Phenology remote sensing of US

Phenology - global vegetation and phenology: 5600m resolution

Phenology - global phenology: 500m resolution

Phenology - urban data
